

Candidate Topics for Your Survey Paper

- General guidelines

As long as you keep your topic in cloud computing and security field, you may choose a topic that you have more interest and help you build some foundation for your career. You are suggested to spend enough time to do further investigation, discussion, and then choose a topic that:

1. you want to know more in the related field;
2. is related to your term project;
3. or you want to work in the related field;

- Candidate topics or key word sets to form a topic

1. Collaboration-Based Cloud Computing Security
2. Inter-cloud Data Transfer Security
3. Securing Data Migration between cloud storage systems
4. Access Control for Cloud Storage
5. Replication cloud
6. Key management cloud
7. Securing authentication cloud
8. Identification cloud
9. biometric cloud
10. data mining cloud
11. big data privacy cloud
12. secure mobile cloud
13. ...Hadoop
14. ...HDFS
15. ...MapReduce
16. data classification cloud
17. assurance cloud
18. Key-Value Store cloud
19. Database content cloud (storage)
20. Object storage cloud (storage)
21. Storage availability cloud
22. Secure data storage cloud
23. Latency cloud (storage)
24. Scalability cloud (storage)

25. Data Storage Vendors:

- Google cloud platform;
- Amazon Web Service;
- HP cloud;
- Microsoft Cloud
- ...

26. Load balancing cloud

27. Authorization management cloud
